

Children's Hospital & Medical Center Clinical Nutrition Services Clinical Nutrition Department

Dietitians assess and manage nutritionally compromised patients based on various nutrition risk factors.

Please order a **NUTRITION CONSULT** upon admission to ensure patients with nutrition risk factors or with nutritional compromise are efficiently evaluated by a dietitian.

Examples of when to consult a dietitian:

- Admitted with malnutrition or FTT
- Patient receives tube feeding
- Patient receives home TPN
- Patient admitted with weight loss not r/t illness
- New Type 1 Diabetes
- Decreased oral intake >5 days

Consider paging the dietitian when there are questions surrounding diet order entry, formula order entry or TPN order entry in EPIC.

Clinical Dietitian	Clinical Coverage Area	Contact Information
Kristy Anderson, MS, RD, LMNT Clinical Nutrition Supervisor	Short Bowel Patients	402-955-5707 402-888-8108
